FATHER SAYS HIS DAUGHTER  
WAS UNJUSTLY AWARDED  
\$6,500.

Conscience Stricken, As He Says,  
John R. Owens Makes an  
Affidavit.

John R. Owens, whose daughter had been awarded a verdict for \$6,500 against the Louisville Railway Company, makes a most remarkable statement in an affidavit filed in the case. He states in effect that his daughter was not entitled to any damages against the Street Car Company.

The affiant says that for the past nine years he has lived with his wife and family at 1236 West Kentucky street, and that he is a carpenter. The accident is said to have happened in February, 1904, though the affiant alleges that his daughter went to school every day and Sunday-school from January 1, 1904, until about April 13. Then she was ill for the four months following, and Dr. Mulvey, who attended her, said she had sciatic rheumatism. Affiant says he heard nothing about the street car accident until after the illness, when it was suggested as a possible cause.

However he says he refused to bring the suit because he had no reason to believe from what he knew and what the doctor said to him that there was any ground for action.

The suit was brought in the name of Fanny Owens, the girl's elder sister, and the father now swears that he knew nothing about it until it was on trial. "Since conclusion of the trial," the affiant continues, "this matter has so preyed upon my mind and constantly annoyed him until he felt it his duty to go to some one connected with the street car company and tell them the facts set out in the affidavit."

Affiant declares that last week he went to the office of J. T. Funk, superintendent of the Railway Company, with intention of relating the circumstances but he found Mr. Funk out. Again on April 14, he awoke to have gone to the office of Mr. Devoe, of the construction department to tell him. Mr. Deboe was out and he told Mr. Harry Towles. In company with Mr. Towles he went to the office of Fairleigh, Straus & Fairleigh where the affidavit was prepared.

From the first the Louisville Railway Company denied that any such accident happened as that in which the Owens girl alleged she was injured. The suit was for \$15,000. The girl, who is about fourteen years of age, could, to all appearances, walk with the assistance of crutches. Her father in his affidavit says that so far as he knows she is only suffering from sciatic rheumatism. But he and his wife have been suffering from this complaint, he says, for a number of years, and they are third cousins.—Louisville Times, April 17

Lives Lost on Railroads in 1904

For the whole year of 1904 the number of lives lost on the American railroads was 3,579, and of these 526 were of passengers. In view of the fact that the English railroads have been able to report a whole year without the loss of the life of a single passenger the rate of mortality is positively frightful. The superiority of the American roads to all others in many respects is well established, but our showing with reference to loss of life calls for radical improvements in their management.

## Southern Baptist Convention.

For the convenience and comfort of delegates and visitors to the Southern Baptist Convention, which meets in Kansas City, Mo., May 11-17, the Southern Railway has made arrangements to run special Pullman Sleepers through to Kansas City without change, leaving Louisville 10:15 p. m., Tuesday, May 9, and it is expected that a through sleeper will also be run from Lexington, leaving that point at 5:30 p. m.

Mr. Carter Helm Jones, Dr. Geo. E. Cates, Dr. E. Y. Mullins, Dr. W. H. Hamilton, Dr. J. R. Samper, Dr. J. D. Marvin, Dr. Geo. W. Clark, Dr. T. J. Watts, Mrs. S. E. Woody, representative Woman's Missionary Union, Louisville; Dr. Preston Blake, Dr. W. P. Hines, Dr. W. H. Felix, Capt. J. R. Howard, Lexington; Dr. J. J. Taylor, Rev. G. W. Augurabie, Georgetown; Rev. T. H. Plemons, Cynthia; Dr. B. B. Bailey, J. A. Middleton, Shelbyville.

A cordial invitation is extended to all who may be going to Kansas City to the Convention, or to visit friends, to join this party. In case there is a sufficient number not desiring sleeping car accommodation a free reclining chair car or coach will be run through without charge to Kansas City. These arrangements will afford members of this party every comfort and convenience, and will make unnecessary any change of car enroute.

The route will be via the Southern Railway to St. Louis and thence via the Missouri Pacific Railway to Kansas City. At St. Louis these special cars will be consolidated with those carrying the Tennessee delegation, headed by Dr. Lansing Burrows, of Nashville, and the entire train will then be handled by special service to Kansas City, making but few stops. This train (the Southern Baptist Special) will leave St. Louis at 9:30 a. m. and arrive at Kansas City at 5:45 p. m., thus making a daylight run through picturesque Missouri, along the banks of the Missouri and Meremac rivers, passing through Jefferson City (the Capital), Sedalia, Warrensburg and other thriving cities of the great State.

A rate of one fare plus fifty (50) cents for the round trip will be made, rate from Louisville being \$18.00.

Tickets will be sold May 7th to 11th, inclusive, with return limit of May 23d. A fee of 25 cents will be charged for validating tickets at Kansas City.

A stop-over at St. Louis will be permitted on return trip within limit by deposit of ticket with Joint Agent, Union Station, St. Louis, immediately upon arrival and payment of fee of fifty (50) cents, to enable you to attend the National Baptist Anniversary, May 16-24th.

Persons desiring to join this party should make application, accompanied by remittance for space in sleepers, to H. C. King, City Ticket Agent, Southern Ry., Lexington, Ky., or A. R. Cook, City Ticket Agent, Southern Ry., 234 Fourth Avenue, Louisville, Ky., who will acknowledge receipt and advise promptly location of berth. Rate for double berth from Lexington to Kansas City, \$8.50; from Louisville, \$3.00.

## Many Horses Come To Lexington

Racing is going to be revived on a splendid scale at Lexington this spring. The famous old Kentucky Association course, the oldest and most famous of all the tracks in America, was purchased a year ago by Capt. S. S. Brown, the Pittsburg Coal King, who has spent \$200,000 to put it in first class shape. The historic stakes which horsemen used to consider it such an honor to win, have been revived and have filled splendidly. Already applications have been received for more horses than can be accommodated with the stable room at the track, which means that the purse races will have splendid fields. The people of Central Kentucky will turn out en masse to witness the racing at Lexington. The meeting is May 3rd to 9th. Reduced rates will be given by all the railroads.

A lazy liver makes a lazy man. Burdock Blood Bitters is the natural, never failing remedy for a lazy liver.

## Cement for Mangers and Floors.

Cement troughs and floors are quite popular. The trough runs the length of the row of cows and is about eighteen inches wide and twelve inches deep. The cows are watered, fed and "hayed" in it; the water last, which cleans all out, says the Jersey Bulletin. Anything left in the trough by the cows can be easily swept out. The water is conducted to it with a rubber hose from the force pump. The floor is laid in cement. The chief point is to get a correct foundation. The best for this is cinders first on the bottom, then pound them hard and put on coarse gravel or finely powdered stone—or brick bats are cheap; pound this solid. Mix cement (out of one of cement to two of clean sharp sand) and spread it on a half to three-quarters inch thick. If a little ron on the surface, all will be better.

If a little ron on the surface, all will be better.

Five thousand men are now employed on the isthmian canal route.

## Turkeys for Profit.

When there is sufficient range the turkey offers flattering inducements to the poultry raiser; large size and large price per pound combining to yield a hand some profit at Thanksgiving time. Aside from two or three characteristics, they are about as easily raised as chickens, and certainly the net proceeds are much greater.

Among all breeds the Mammoth Bronze is a general favorite. It is of heroic size, fine flesh, and hardy, inheriting some of the wild blood of its direct ancestors, the wild

### Contract For New Settlement Building at Hindman.

The Board of the W. C. T. U. Settlement School met April 12. The report of the Treasurer gave an encouraging outlook for the new Settlement building, which is to be erected this summer on the at Hindman. Mr. Albert Smith, of Chicago, the contractor, is to begin work the first week in May, and the building will be pushed to completion as rapidly as possible.

Belknap Hardware Co., of Louisville, donated all the hardware that was necessary for the building, together with certain tools that were essential to the work Ahrens & Ott Company, of Louisville, donated fixtures for the bath room. Mr. Boinecastle two barrels of coal oil.

The State officers of the W. C. T. U. voted to hold the State Convention of that organization in Lexington September 29 to October 3, 1905. The financial condition of the State W. C. T. U. as well as of the school, is in a most healthful condition.

### CATARHAL TROUBLES PREVAIL

Spring Months Cause Catarrh—  
Breathe Hyomei, and be  
Cured.

Catarrhal troubles are more common at this season than at any other time of the year. The sudden changes that come during the spring months are productive of many cases of catarrh that without proper treatment will become chronic.

The pleasantest, most convenient, and only scientific method for the treatment and cure of catarrh, is Hyomei. Simply put twenty drops in the little pocket inhaler that comes with every outfit, and then breathe it for three minutes four times a day.

The complete Hyomei outfit costs but one dollar, and as the inhaler will last a lifetime and there is sufficient Hyomei for several weeks' treatment, it is the most economical catarrhal remedy known. Extra bottles can be procured for fifty cents. Ask W. S. Lloyd to show you the strong guarantee under which he sells Hyomei. [A26M10]

### The Party May Demand That He Yield to Their Wishes.

No matter how frequently or how forcibly Mr. Roosevelt may declare that he will not be a candidate, the fact will remain that it is always possible for the office to seek the man in a way to insure acceptance. And the most sincere and emphatic declaration, repeated over and over again, might tend directly and controlling to create the very situation on which the prediction of a re-nomination and re-election of Mr. Roosevelt is based. The Post violates no confidence in stating that some mighty interesting things relative to 1908 are happening in the spring of 1905.—Washington Post.

### In Kentucky.

Hon. William Jennings Bryan was in Danville Wednesday by chance. No one knew of his coming until he was there, but on his arrival the news was soon circulated and every political faith of the city was represented in the a crowded court room. Mr. Bryan spoke 30 minutes and everybody was as anxious to see and hear the distinguished speaker as when a candidate.

### Burglar Traps.

Merchants and property owners in Montgomery, W. Va., becoming frightened at the number of burglaries perpetrated in that section, have equipped their stores with spring guns and other burglar traps. There is hardly a store or dwelling in Montgomery that is not equipped with some kind of apparatus for the destruction or capture of prowlers.

## DUST AND DIRT.

Monday (Court-day) was attended by a large crowd composed of home and foreign people, the great majority of whom were here on business. To our people, and we trust to strangers as well it was a profitable day. It was not an agreeable day, for the dust, dirt and sand filled the eyes of the busy man and the stranger's impression of Mt. Sterling was not what it would have been had the streets been properly sprinkled.

The tax rate for Mt. Sterling is at its limit and the legislators who framed the law governing cities of our class doubtless took into consideration the necessities and the amount of money necessary to meet them. We are sure the amount is sufficient because many cities with less than the limit tax rate have their streets sprinkled, pay a water and light tax levy and enjoy a police service as good as ours, and in some of these cities are brick or other modern streets.

## LEARNING.

The men of Montgomery and other counties of this Judicial district are learning that failure to comply with the processes of the Court, or interferences with witnesses, or efforts (intentional or unintentional) to impede the progress of the Court, will meet with merited disapproval and punishment on the part of Judge A. W. Young. So far as we are able to see, Judge Young's course is worthy of emulation and should meet the approval of all peaceable and law-abiding citizens.

## REPUBLICAN RECITATION.

In a pamphlet of 48 pages the Hon. Henry H. Smith (Republican) gives an account of the stewardship of Senator J. C. S. Blackburn. His labors have most certainly been continuous and arduous and to demand that the old gentleman again resume the duties of United States Senator at the close of this term is really cruel. Why, this pamphlet gives an account of almost innumerable efforts in behalf of the betterment of the condition of affairs in this country, and to make it be inconsiderate. Are there not others, young men of brawn and brain, who would begin the training for the honored yet knotty task of enduring the labors and hardships in U. S. Senate? Is not time the riding of this willing horse with a service of nearly 30 years come to a close?

Mr. Blackburn's opportunities have been many. In subsequent issues we shall these opportunities and make statement of what has come to pass. Mr. Smith in his closing remarks of his friendship of 20 years and more gives his estimate of Senator Blackburn in the following language: "I trust the Legislature of Kentucky will not finally adjourn until it has elected a Republican to succeed Senator Blackburn in the Senate of the United States. It has in Bradley, Hunter, Evans and others who might be named, men who would fill with honor and distinction to themselves and the State of Kentucky the seat now occupied by Mr. Blackburn, and if you can't elect one of these, take Blackburn." My, how the mighty have fallen.

A SEARCHLIGHT.

"My position briefly, then, is this: Believing that the supremacy of the machine means tyranny over the State to the Republicans as certainly as the sun rises in the east, I shall fight it to the last ditch. I want to get back to the Senate, and I feel sure that I shall, but my seat depends on ceasing to warn my people of their danger, I would gladly sacrifice it."

This is Senator Blackburn's position which he has defined. The Senator has named the opposition to himself "machine." And it must be really frightful to him, a disturbing cause to restful sleep. The Senator need blame no one but himself for opposition and approaching defeat. Had he been a man that had brought things to pass he may have expected to remain with his name on the national payroll so long as he lives, but he didn't and possibly couldn't, and the continuous cry of "machine," notwithstanding the hatred of the term, will not save him.

Statement Coming.

As will be seen in another column, we are assured that Montgomery county affairs are in good shape and this is no occasion for alarm. ## CIRCUIT COURT.

Wade Hall and Bob Tipton, colored, got 3 years 10 months for stealing from Climax mill Will Black for killing Joe Taylor got two years. Three other negroes received sentences for other offenses.

E. Hogg, of Morehead, was admitted to practice in this court.

In the \$5,000 damage suit Wallace Scott versus Jno. W. Lockridge the jury returned a verdict of \$25 in favor of Scott.

The petit jury was discharged on Thursday.

The grand jury was discharged on Friday.

Circuit Court adjourned on Friday until Tuesday of next week.

The grand jury on Friday recommended to the Court that a rule be issued against the Fiscal Court to show cause why a statement of the financial condition of Montgomery county should not be made public.

But as some question has arisen over the matter we state that we are having said financial report prepared and will have same published as soon as possible.

We can say that a report will show that the county's fiscal affairs are in good condition.

When we entered in the discharge of our duties in 1898 the County had just acquired the turnpikes which cost about \$55,000 and for which vouchers, all bearing interest, some at 5 per cent. and some at 6 per cent. had been issued, and which vouchers were payable out of the levers of the succeeding years, and no money was on hand to pay these vouchers or any part of them.

The County at the same time owed \$80,000 railroad bonds of which \$7,000 were due and also \$6,000 Court-house bonds, besides other debts.

Since that time the County has reduced its indebtedness on account of turnpikes nearly \$20,000, has paid \$13,000 Railroad and Court-house bonds, has built a pier for the big iron bridge over State creek at Howard's Mill about \$5,000, fence department at jail, new heating apparatus at Courthouse, and many other needed improvements.

There have been a number of smallpox outbreaks to contend with and this has been an unlooked-for item of expense.

The turnpikes have been kept in good repair as possible and are now in good condition. They were when purchased, and at least regular meetings of Fiscal Court, April 4, 1905, the County had in cash funds available on deposit in hands of Treasurer \$6,135.01 which was more than sufficient to pay all outstanding vouchers of all kinds issued for carrying on the general expenses of the County and also on account of repairs of turnpikes up to date.

in excess of the appropriations for the last year.

We have attached hereto the names of witnesses who have failed to respond to the subpoenas issued for them as well as some who have purposely avoided the Sheriff, and suggest that attachments be issued against same for their appearance before the next grand jury.

We desire also to express our thanks to the Sheriff and Attorneys for their willingness and promptness in assisting us during our sitting. All of which we respectfully submit.

## "Millions Drink and Die."

Richard W. Lyles, a brilliant lawyer, editor and poet, of Danville, Virginia, blighted a noble and distinguished manhood by subjects slavery to alcohol. The following poem is one of the most eloquent temperance lectures in the English language:

I have been in the funeral of all my hopes,  
And committed them one by one,  
Not a word was said,  
Not a tear was shed,

When the last sad task was done,

Slowly and sadly I went me round  
And sought my silent room,

And there alone  
By the eod heartstrokes  
And waded the midnight gloom.

As the night of man's deepest shade  
Lowered over my head,  
I except ever day,

When manhood's ways  
Were brighter far than now,

The dying embers on the hearth  
Gave out their flickering light,

As the sun  
This is the way  
My life shall close in night.

I slept alone in anguish sore,  
Our the blight of profligate fair,

With the dead drunk, laudanum,  
And earl quaffed,

My tears like sear stars.

Through hell's red halls an echo rang,  
An echo loud and long,

As in the bow'ls  
Of the deep soul,

In the might of madness strong.

And there within that sparkling glass  
I knew the cause to lie,

This all men know,  
From zone to zone,  
Yet millions drunk and die.

## Statement by Senator Blackburn.

A special from Versailles to the  
Lexington Herald says Senator Jo  
C. S. Blackburn authorizes the fol-  
lowing statement:

"In view of the fact that many  
misleading statements and inter-  
views are being attributed to me,  
and realizing I will have to con-  
tend with this same trouble in the  
future, I want to make a plain and  
unequivocal statement of my  
position in the fight  
now in progress. I believe that  
the domination of the machine now  
assailing me means ruin to the  
Democratic party. A year ago when I  
entered the Senate on condition that  
I would let them alone. So  
sure was I that the triumph of this  
machine meant a turning over of  
the State to the Republicans that I  
refused their offer and notified  
them that I proposed to make war  
on them until their power was  
destroyed, no matter what the con-  
sequences might be to my personal  
fortunes.

"Feeling as I did, I would have  
been a traitor to my party to have  
surrendered to them and to have  
joined their dangerous coalition that  
was ever formed to throttle a free  
expression of the will of the people.  
In consequence of my refusal I  
have today their bitter and malig-  
nant opposition and I would rather  
ten thousand times go down in de-  
feat in trying to save my State and  
my party rather than 'win' with  
their help.

"I want it distinctly and emphati-  
cally understood that from now  
until all the nominations for the  
Legislature are made, I will be on  
the stump doing all in my power  
to expose the machinations of this  
group. From that time on my best  
endeavor shall be given to help  
elect every Democratic nominee,  
whether he is for or against me.  
My Democracy is too well known  
for any one to doubt my absolute  
loyalty to my party at all times,  
and I shall be found fighting its  
battles as long as there is breath  
in my body, whether it returns me  
to the Senate or not.

"My position briefly then is this:  
Believing that the supremacy of  
the machine means turning over  
the State to the Republicans as  
certainly as the sun rises in the  
East, I shall fight it to the last  
ditch. I want to go back to the  
Senate, and I feel sure that I shall,  
but if my seat depend on ceasing  
to warn my people of their danger,  
I would gladly sacrifice it. Every  
Democratic nominee for the Leg-  
islature may feel sure of my earnest  
and hearty support, no matter how  
he stands in the Senatorial race,  
and when my party has acted in  
the matter of selecting a State  
ticket, I will be found standing by  
her standard, no matter if she seems  
doomed to ignominious  
defeat."

## Lexington Gets the State Fair.

The Kentucky State Fair will be  
held in Lexington this year, Sep-  
tember 18 to September 23 inclu-  
sive.

The Lexington proposition in-  
cludes a guarantee of \$12,500,  
available for current expenses when  
needed, a representation of three  
on a committee of eight, having  
charge of all appropriations and  
an offer of the use of the Trotting  
Track grounds, with light and  
water free.

Louisville offered a guarantee of  
\$10,000, the use of grounds that  
would cost the association be-  
tween \$2,000 and \$2,000 and asked  
for an equal representation on the  
committee having charge of the ap-  
propriations.

**The Case of Millionaire Stokes.**

Somebody wants to know why there should be so much comment over the fact that J. G. Phelps Stokes is to wed Rose Harriet Pastor, who earned her living in a cigar factory.

Because it is a sensation. It is something to make the public sit up and stare when a man of millions devotes his life to the aid of the poor and lowly, and when that same man refuses to mate his wealth with wealth and selects a woman for his wife for that great human reason—LOVE.

We have in this country of great fortunes a few young men who have taken the wealth left to them by their fathers and wisely administered it. They are the exception.

We have others by hundreds who are spenders. Life, to them, is a good time. They are not ruled by example, by regard for health, or by morals. They want to travel fast. They have a peculiar desire to shock somebody, and they do things that offend not only good men and good women, but good taste and decency.

They spend millions to kill time. They are rather proud of the fact that they are world-wearied, although scarcely out of the age of childhood. They gamble, they drink, they plunge, and their code of morals says: "Why shouldn't we do these things? WE HAVE THE MONEY TO PAY FOR THEM."

If you will go over the history of the last half century you will find a sad story. It deals with men who built fortunes and honor by hard work and same living. They brought some into the world and hoped to replace themselves with a race even stronger and more honored.

And these sons scattered the money and smeared the good name with every kind of deviltry disordered brains could conceive.

J. G. Phelps Stokes "had the money" to pay for all those things. Instead, he will wed a poor woman whom he loves, and continue to do good works.

That is why there should be comment. He stands so nearly alone that he towers above the millionaire herd like a mountain—Cincinnati Post.

**Miserable Conditions,**

Of body and mind, always result from a torpid liver, which leads to bile poisons being absorbed into the blood, and poisoning all the nerves and tissues. This dreadful state, some of the symptoms of which are headache, bitter taste, nausea, lack of appetite, yellow complexion, constipation, etc., can be quickly cured by taking Dr. Caldwell's (laxative) Syrup Pepsi. It relieves the strain on your liver, relaxes the tightened bowels, purifies the blood, strengthens the stomach, and makes it as clean as a whistle. The result is perfect health, and freedom from pain and discomfort. Try it. Sold by W. S. Lloyd at 50c and \$1.00. Money back if it fails.

**A Wife and a Cow.**

The illustrious General R. E. Lee, in his advice to his children, said to his boys: "If you want to be missed in society, be useful; patch up the old house and keep out of debt; marry a sweet woman. Let her bring a cow and a churn; they will be all you want in starting a happy, useful life. Read, improve the mind; read history, works of truth, but never read novels. Follow simplicity of dress; it is not becoming in a Virginia girl to be fashionable. A farmer's life is one of labor, but it is also one of pleasure."

The young man who preaches his acts and life on the grand principles above marked out by General Lee will be a success in this world.

# Good Health to the Children

Children especially are fond of dainties, and the housekeeper must look carefully to their food.

As good cake can be made only with good eggs, so also a cake that is healthful as well as dainty must be raised with a pure and perfect baking powder.

Royal Baking Powder is indispensable in the preparation of the highest quality of food. It imparts that peculiar lightness, sweetness and flavor noticed in the finest cake, biscuit, doughnuts, crusts, etc., and what is more important, renders the food wholesome and agreeable to young and old.

## New Treatment for Meningitis.

A new method of treatment for cerebro spinal meningitis employed at the Hospital Beaujon in Paris is described by the Herald. The respondent in that city, Up to the present time this treatment appears, the dispatch says, to have given more satisfactory results than any other.

It consists of injections of metallic ferments, "a solution of one in ten thousand." Every day twenty cubic centimeters are injected into the muscular tissue of the hip or abdomen. In cases presenting very serious symptoms good results were obtained from intravenous injections of a solution containing one milligramme of the metallic fer-

ment per cubic centimeter. Silver and manganese are the metallic ferments which seem to give the most successful results. This medicine is said to be free from disadvantages.

After a few injections the record of the patient's temperature shows a general lowering. Each injection is followed by a rise in temperature, more or less marked, followed in its turn by a decrease which brings the temperature below the initial figure.

There were fifteen deaths Friday in New York from cerebro spinal meningitis, as against thirteen on the day previous. Eight of the deaths were in Manhattan. Since last Saturday noon, the total is 110.

## SYMPTOMS THAT INVITE GERMS

Little Ailments That Should Be Looked After if One Wants to Keep Well.

Anyone who has any of the many symptoms caused by poor digestion should take special care to avoid conditions where disease germs are likely to be present. Any of the following symptoms are good evidence of stomach troubles.

Acidity	Gripes
Swelling up of food	Cold tongue
Gastritis	Sour taste in the
Sedimentous urine	Stomach
Night sweats	Diarrhoea
Loss of appetite	Nervousness
Nausea	Numb tongue
	Vertigo or dizziness
	Drowsiness

These little ailments, which indicate a weak stomach and imperfect digestion, should be looked after by the use of Mi-o-na, if one wants to keep well. A tablet of this remarkable remedy, taken before each meal, will so strengthen the stomach and digestive organs that natural weight will be restored and perfect health and strength regained.

Ask W. S. Lloyd to show you the Mi-o-na guarantee. [AD 20 M10.]

## No Place Like Home.

T. W. Glass, Tallahassee, Ala., wanted to get rich quick, went westward the far west and after a while returned to his southern home, and here is his experience as told in the Inland Farmer. It will do our people good who are always thinking the next place is a little better than home until he has tried it. Here is the letter:

I am a member of a church where, when one joins, he is expected to tell some kind of experience, and if you will admit me in your columns I will tell the readers a short experience from my life.

Five years ago I lived a few miles south of Alexander City, Ala., with a very good little start in the world. But I took the notion to go west and get rich at once. I got on the iron horse with good clothes on and money in my pocket. The first big town I passed through was Birmingham, Ala., then Memphis, Tenn., and Kansas City, Mo., and finally reached Oklahoma City where I stopped. I thought I had found the finest country in the world, with all of its fine stock, wheat fields and numerous other things different from what I had been used to. I learned how to run all kinds of farming machinery, such as three to six-horse plows, harrows, wheat-drills, binders, mowing machines, etc. I can run most of this machinery here in Alabama as well as I can get the stumps out of my land, and am going to try it. I believe Alfalfa will grow here as well as it does anywhere. Would like for someone who grows it to write me what he will sell me at per bushel. (Write to J. N. Shirley, Lebanon, Ind., or to Geo. Campbell Brown, Spring Hill, Tenn., for Alfalfa seed and culture, Editor Inland Farm.)

INTERVIEWS WITH AGED MEN. EXHIBIT OF RELICS.

Sing Sweetly and Smile Bewitchingly.

THE LOVE AND COMPANIONSHIP OF A CHILD.

On Friday, April 14, we went to Bourbon. Our aged friend James Moore is very feeble, partially paralyzed. He retains his memory remarkably well for one of 85 years, considering his infirmity for nearly a year. With strong faith in the promises of God he awaits the change that takes him to the heavenly home. In North Middletown we again met the aged Frank Houston, of Paris, erect, active, talkative.

Enroute to Plum we called to see James Hedges. He was hoing raspberries. In our long talk we learned some facts. He is 82 years and 4 months old, has continuously lived until present time in the house in which he was born. Large of physique and stooped by reason of age and toil, he works every day. At the age of 56 years he married the woman who for 13 years at \$2 per week and clothing nursed his invalid mother, who closed her career at the age of 93 years and 7 months, dying in August, 1872. A girl his mother played on the Indian mound which gave name to Mt. Sterling. For many years he was a breeder of fine sheep. That industry he began 52 years ago with 2 ewes and 2 lambs for which he paid \$31. He has sold bulls for \$100 to \$150. He has sold wool at 50¢ per pound. Never did he wear an overcoat, and for 12 years has not worn an undershirt. The prospect is favorable to other years of work. His only children are James Oscar and Riley Hedges, who, with his wife, survive him.

If any readers wish to know other facts, call up 74.

Our next stop was at Bishop & Everman's store. Mr. Bishop is the brother-in-law and Mrs. Everman is the sister of Mrs. L. N. Phipps of our city. To their line of general merchandise they will soon add buggies.

PLUM.

John W. Craven, of Hazel Green, was here erecting tomb stones. J. E. Boardman had often asked us to stop with him. He was in town and extended an invitation. We accepted, and at dusk we were at his home. Minerva Sue, his little daughter, had spent much time gathering flowers. There was a table decoration and a front button hole bouquet. We enjoyed her animal-decorated blocks, and in the early morn while the dew was heavy we carried her in our arms to see her pet lamb, which races with her and "jumps up and hits her above the heels." The love and companionship of a little child is a great blessing and joy to win this we must adapt ourselves to their ways.

The Boardman home had two

received. Called to see Mrs. Wm. Day but she was not at home. John R. Peters, of Bethel, has located at Hocktown, R. F. D., No. 4 from Cynthiana, and will engage in general merchandising. He is an experienced business man and will no doubt command a good trade.

MOOREFIELD.

We dropped in to see our friends Wm. Durham and wife. They were at dinner, and made home folks of us, which we much enjoyed. Relics, yes we saw some of their collection: The bamboo walking cane used by his grandfather, and supposed to be about 100 years old; the mantle clock bought by his father in 1840 and in continual use; the long rifle with which his father brought squirrels from tall trees many years ago; a bible printed in 1839; a six-pound cannon ball scalped up by his father on the Perryville battlefield; his grand-father's powder horn with powder charger, made from tip of a deer's horn, and marked "H. L. 1825"; his grand-father's hunting knife, a two-edged 9½ inch blade (when we go on the war path for various wars we may use this scalping knife); one of Mrs. Wm. Durham's wedding slippers; a marble ball with which he played in childhood, and various other things.

J. W. Berry's daughter, Miss Pansie, graduates this year at Lexington.

W. H. Howe President; Dr. O. S. Kash, Vice-President and W. E. Ballinger, Cashier.

We sat with Dr. O. S. Kash for a few moments. His father, Miles Kash, aged 82, has kept close to the house during the winter; he is feeble but has had little sickness.

Robt. McVey, aged 79, is seriously ill.

Mr. Howard Anderson, of Mt. Sherrill, was visiting his father, Mr. John Arasmith.

J. F. Royste at intersection of pikes to Bethel and Moorefield has two rural routes boxes—one for each of two routes.

SHARPSBURG.

Our friend J. R. Shrount had said: "When you are in this section come in and stay with us."

Ran to Sharpsburg we met R. N. Ratliff and children on the pine near his home. With that cordiality that characterizes so many Kentuckians, he said: "Go

Light.

The remains of St. Vanselt were removed from the cemetery here to Mt. Sterling on Thursday. He had been dead about 30 years. He is the father of Mrs. Jno. E. Groves, for years of our city, and of Mrs. Amelia Vanneter, of Fayette.

After a partnership of about 3 years the firm Arasmith & Robertson was dissolved on the 13th. Mr. Cyrus Arasmith will continue the business alone, carrying groceries, notions, furnishing goods, boots, shoes etc. The house in which he does business was built about 73 years ago. The "Col."

is the oldest resident of the town.

Prospect for wheat is fair. The acreage of tobacco will be increased.

Encouraging reports come concerning the approaching local option contest.

But little tobacco remains unsold.

John S. Vice who bought the Davis home residence last fall is awaiting his dinner.

An easier exercise was to be held at the Methodist church on Sunday evening.

One of our homes is at Wm. Pieratt's. Here we were kindly

home with me and spend the night."

We postponed with thanks as we had friend Shrount in mind. We detoured about 2½ miles to reach his home. The full orb'd sun near horizon was beautiful beyond description, the landscape of refreshing green for miles on every side was charming. The daughters and son, Waller, had gone to Sharpsburg to practice for "The Spinster's Return from the Klondike," which was to be given on Friday and Saturday nights in the hall over the new building and for the benefit of the blind R. M. Caldwell, of Millersburg. So we missed them. Mrs. Shrount, against our wish, took time to prepare extra refreshments. We had a long and pleasant chat about matters and things in general, closing the day with some of God's promises.

Next morning we spent a social half hour, more or less, at R. Donaldson's home with the family and the Misses Shrount.

For stock items see Land, Stock and Crop.

We stopped in town, broke bread with the Withers family, found shelter from the storm, and continued the trip. What did you say about that mud' section of the Sharpsburg and Mt. Sterling Pike? Well, Mr. Judge, Mr. Magistrate, Mr. Overseer, isn't it too bad that money is not at hand to change that road? Think of it, teams stalling on a level rise, during the winter months, and all those neatly washed buggies being sciled when the young folks from various places go sparkling.

Yes, see what the raiders have brought, the Mr. overseer is an expert and may use his persuasives on the powers that be, and very soon while the birds sweetly sing and the Misses smile-bewitchingly, our beau from the regions round about will speed along at a 2:30 gait and forget all their woes.

AN OLD DOCUMENT.

On Friday T. J. Northcutt showed us an old document which reads as follows:

Clerk County to wit: Rec'd of Andrew Duncan a twenty-five dollar bill and five cents.

Andrew Duncan was the great uncle of T. J. Northcutt. Mrs. Northcutt has a copy of the Day's Doing, printed in New York on Feb. 20, 1869. It has been a parlor decoration a meat dish which he has known for 40 years. Its dimensions are 13½ by 18½ inches. It is highly decorated in blue. The rim has 18 full bloom roses. The central picture of 3 houses is a church with tall square tower. It belonged to his grand-mother Doffman, who at the age of 84, died about 25 years ago.

As Mrs. Northcutt played the violin her little grand-daughter, Leila Henry, daughter of Ernie Henry, sang a verse of Beautiful Isle of Somewhere. The familiar strains of Arkansas Traveler greeted.

Mr. Northcutt when he was Admistrator of his father's estate 12 years ago found it among his father's papers, but does not know when his father received it.
